OCTOBER 19, 2018: Wager's Way

720 County Road 1754 | 9 a.m. - 4:30 p.m.

Wager's Way is a unique, hands-on learning experience where horses are the catalysts to help program participants connect the dots and better understand themselves. * Wager's Way helps people learn about their strengths and the strengths of those around them. Leaders and their teams can be inspired to work together more effectively, which ultimately benefits their organizations as well as the community around them. Throughout the day of experiential leadership development, participants will: explore individual leadership styles, experience how to manage to the individual and how motivation plays a role, learn the difference between leadership and management, discover strengths and challenges as both leaders and team members, expand awareness of personal characteristics that contribute to and detract from effective leadership and understand the impact of various means of communication and reinforce knowledge of the important role that clear communication plays in supporting effective leadership.

*There is no riding. All exercises are done on the ground. No horse experience is necessary. With guidance from their trained facilitators, participants reflect on the exercises with the horses and draw parallels to their strengths and challenges! Transportation to the facility will be provided. In the case of inclement weather, the class will be held at the Ashland Fairgrounds. **For more information, visit www.thecollaborationpartners.com**
